Over 1,300 Dealer Clones

A directory of fake vehicle and equipment dealership websites documented by FrankonFraud. Each impersonates a real dealer or invents one, takes payment by wire, and never delivers the vehicle. If a dealer you are dealing with appears on this list, do not send money.

Tracking **1,312** sites. **695** currently live, **617** taken down or offline.

Web addresses are listed as plain text so no one is directed to a live scam site. A listing means the site is documented as fraudulent or as an impersonation of a real, unaffiliated business; the real dealers whose identities were stolen are victims and are tracked separately.
