

AI Models and Agents Looking For Jobs In Cambodia

The *China-Cambodia HR Talent Reserve Telegram Channel* is a very interesting place to visit. It can only be described as a video and image message board with men and woman interested in working for casinos and scam operations in Cambodia.

The applicants are good looking, young and seem willing to work for Casinos and Pig Butchering Scam compounds, however they don't want to work "inside" the operations which I take to mean that they want to enter and leave freely, working on their own terms.

Here is a typical job wanted ad posted on the channel. This girl is looking for a job as an AI or call center model. She post various pictures and videos of herself and says she can speak multiple languages. She currently works in Phnom Penh but wants to work as an AI Model.
