

## **NEW EXTORTION EMAILS SHOW PICTURE OF YOUR HOME**

Dear Thomas Smith,

I know visiting 416 Thone Street in Columbus Ohio would be a more convenient way to reach in case you don't act

Beautiful neighborhood btw

I suggest you read this message carefully. Take a moment to chill, breathe, and analyze it thoroughly. We're talking about something serious here, and I don't play games. You don't know anything about me, but I know you and you must be thinking how, correct? Well You've been treading on thin ice with your browsing habits, scrolling through those fifty videos and venturing into the darker corners of cyberspace. I placed a Spyware called "Pegasus" on a app you frequently use. Pegasus is a spyware that is designed to be covertly and remotely installed on mobile phones running iOS and Android. And while you were busy watching those videos, your system initiated operating as a RDP (Rcmote Device) which gave me total access to your system. I can peep at everything on your screen, flick on your cam and mic, and you wouldn't even suspect a thing. Oh, and I've got access to all your emails, contacts, and social media accounts too

### **What did I do?**

Been keeping tabs on your pathetic existence for a while now. It is simply your bad luck that I got to know about your blunder. I invested in more time than 1 probably should have looking into your personal life. Extracted quite a bit of juicy info from your system. and I've seen it all Yeah, Yeah, I've got footage of you doing filthy things in your house (nice setup, by the way). Then developed videos and screenshots where on one side of the screen, there's whatever garbage you were. watching, and on the other part, its you doing

inappropriate things. With simply a single click, I can send this garbage to every single of your contacts. What can you do?

I feel your worry and confusion. Wholeheartedly, I am willing to wipe the slate clean, and allow you to get on with your regular life and forget you ever existed. I am going to present you two alternatives. Either turn a deaf ear to this message (bad for you) or pay me a small amount to close this topic forever. Let's investigate these 2 options in more detail  
Alternative one is to turn a deaf ear to my e-mail. You should know what will happen if you pick this option. I will send your video to all of your contacts. The video is straight fire, and I can't even fathom the embarrassment you'll face when your colleagues, friends, and family watch it. But hey, that's life, ain't it? Don't be playing the victim here.

Wise Second Option is to pay me, and be confidential about it. We will name it my "confidentiality fee". Let's see what happens when you select this path. Your dirty secret remains private, I will wipe everything clean once you send payment. You'll send the payment via Bitcoins only. I want you to know I'm aiming for a win-win here. I honor my obligations.
