

BEC UK Tutorial

BEC UK

Hard work and dedication required:

You need a UK business drop Account and knowledge of spamming to do this.

1. You need UK business email leads.

Target sectors:

Export
Manufacture
Wholesale
Production
Suppliers

So your first goal is getting the leads somehow. Find a way. Find the people. When asking for people who can do this ask in such a manner that it won't give away what you're doing.

"Does anybody know how to get industry specific business leads in selected countries?"

2. Then send generic mail Like:

Good Afternoon

I've been looking at your company and I am interested in using you in the near future. Could you please send more information in regards to your pricing in the form of a brochure or listed pricing for clarity.

I look forward to hearing from you.

Kind regards

NAME SURNAME
(Director)

COMPANY NAME LTD
www.website.com

[LOGO]

(This is my letter so I better not see anybody else post it

🤔)

For this you need basic spamming knowledge but don't use cracked accounts as you want to ensure you can keep communications with the suppliers open.

Once you receive all your replies, respond to them thanking them:

"Good morning

Thanks for the swift response. I'll be in touch soon, I look forward to working with you.

Kind regards

NAME SURNAME
(Director)

COMPANY NAME LTD
www.website.com

[LOGO]

then move to the next step.

3. This is social engineering.

You will now wait 2/3 working days and you will send a message to all those you promised to get back in touch with.

"Good afternoon

I've had a look at your pricing and products and will send you a purchase order shortly after confirming with my team.

Kind regards

NAME SURNAME
(Director)

COMPANY NAME LTD
www.website.com

[LOGO]"

4. You will now wait ONE/TWO more days and send a Purchase Order

The waiting is part of the social engineering to look like a genuine client.

The Purchase Order (PO) is the catch.

At this point you can use 2 methods A or B

A) The PO could be a .doc or .pdf "SILENT FUD EXPLOIT" (too many fakes or dead on the market)

This will have a botnet virus which steals passwords and logins

(EXPERT CODER REQUIRED FOR A FRESH SILENT FUD EXPLOIT)

B) The PO could be an EXCEL or WORD SCAMPAGE asking for an office365 login to view the PO.

You'll need a cPanel, dedicated hosting and coder.

ENSURE SCAMPAGE HAS ANTIBOTS AND IS UNDETECTABLE

TRY IT ON <https://mxtoolbox.com/blacklists.aspx> TO SEE IF IT WILL BE DETECTED.

Once you send the PO you will need to let them know that you've sent the PO and look forward to hearing from them.

5. Now you have access to their emails you need to monitor their emails. Look at how they send out their Payment Requests (PR).

Wait for a big order £100k plus and respond to their email using the same practices that the company would usually do but enter your drop account's details in there. Delete the emails from the system. Follow up on spoof email.

6. Wait for payment to arrive.

Cash out

You will have a lot more time to cash this out than a normal log job so do it properly

SPAMMING OFFICE FOR BEC

The Nigerians are the best at this

They have a team of people doing this and make a share of millions daily

Spam office logs ending in .co.uk

Or any office logs

Search through the logs for businesses.

Of those business office logs the team will look for businesses that receive high purchase orders

Those companies that receive high purchase orders will be monitored.

When a new purchase order comes in the emails are spoofed and the scammer will pretend to be the business that was being monitored and continue the conversation with the customer sending the purchase order.

The scammer will then send a payment request based on how the company normally sends a payment request but will enter the IBAN and Swift/BIC code of the drop account

The payment will be sent by the victim and the scammer will stay in communication sending confirmation etc to keep the victim sweet while we clear the money.

Preferably we want the victim to be outside the UK because UK to UK payments block quicker and they have CoP (Confirmation of Payee) so we want the victim to be outside the UK but sending to the UK account.
